

Avoiding Common Errors in Vaccine Storage and Handling WD4246

PROGRAM DESCRIPTION: This webinar will help health care providers and immunization stakeholders to identify common errors in vaccine storage and handling. Preventing these errors can help to protect your patients, safeguard your vaccine supply, and avoid the unnecessary costs of revaccinating patients and replacing expensive vaccines.

OBJECTIVES:

At the conclusion of the session, the participant will be able to:

1. Describe the best practices for vaccine management in clinical settings with an emphasis on proper vaccine storage and handling techniques.
2. Describe my role, responsibilities, and scope of practice as a team member in preventing errors in vaccine storage and handling.

**FACULTY/
