## KEYNOTE SPEAKER

### SANDRO GALEA, MD, MPH, DRPH

Dr Galea is an Associate Professor of Epidemiology at the University of Michigan School of Public Health. He was formerly Associate Director of the Center for Urban Epidemiologic Studies at the New York Academy of Medicine and Assistant Professor at the Columbia Mailman School of Public Health.

Dr Galea is primarily interested in the social and economic production of health, particularly mental health and behavior in urban settings. He has an abiding interest in the social and health consequences of collectively experienced traumatic events. His work includes basic epidemiologic research, theoretic development, and the application of innovative methods to epidemiologic problems.

Dr Galea has published more than 150 peer-reviewed articles in scientific journals and more than 25 chapters and commentaries. His work has been primarily published in medical and public health journals including the *New England Journal of Medicine*, *American Journal of Epidemiology*, *American Journal of Public Health*, and *The Lancet*. Dr Galea has edited 3 books including *Cities and the Health of the Public* and *Methods for Disaster Mental Health Research*.

He has received a number of grants for research from the National Institutes of Health and the Centers for Disease Control and Prevention, among others. Dr Galea is an elected member of the American College of Epidemiology and a fellow of the New York Academy of Medicine and the Royal Institute of Public Health. Dr Galea did his graduate training at the University of Toronto Medical School, at the Harvard University School of Public Health, and at the Columbia University Mailman School of Public Health. He is board certified in Family Medicine and Emergency Medicine and is a licensed physician in Michigan, New York State, and Ontario. He has worked as a clinician in several remote rural communities including Galkayo, Somalia, Geraldton, Canada, and Ialibu, Papua New Guinea. Dr Galea's work has been featured by several media outlets including *The New York Times* and *NBC Dateline* among others. He was named one of *TIME* magazine's epidemiology "innovators" in 2006.
